

My family is served by the radio station K-Love as our primary source of entertainment on the FM translator. If removed, our family has little recourse for the worship and clean music available to our community. If displaced to the LPFM it would be very sad to our community, especially since there are many subscribers in Lincoln, NE. It is in the public service to keep K-Love on the FM translator because there are not many stations in our community that are serving the entire family, all ages. Personally, I have a 16 yr. old and a 6 yr. old that both enjoy the station. All members of the community can listen to K-Love without the threat of inappropriate messages of any kind.
